

Corporate Partnership Application

At Fiix, we recognize the enormous potential of business to drive positive change. We also see an urgency to harness this power and become a force for good in the world in order to meet today's biggest challenges: Building an inclusive, equitable and just world; ensuring that the planet can sustainably support us; and providing economic security and opportunities for all people.

We strive to contribute to our local community while having an impact globally. For us, that means contributing to the social, economic, and environmental needs of our communities in meaningful, long-lasting and innovative ways. Our community involvement is aligned with the UN Sustainable Goals that fall under our triple bottom line.

We also highly value community engagement and constantly seek volunteer opportunities, mentorship opportunities and speaking engagements for our employees.

We ask that all requests for collaboration come through this form. Thank you!
